

Letter of recommendation

I am pleased to confirm my academic ties and professional contacts with Mr Jaroslav Koutský from the University of Jan Evangelista Purkyně in Ústí nad Labem. I know Mr Koutský since many years and we are working together on similar topics. Thanks to the proximity of our institutions in the German-Czech border region, we meet at professional seminars, round tables, and project events organised by one or the other university. We are constantly seeking opportunities for closer cooperation, recently thanks in particular to the possibility of using resources for the transformation of our regions.

I fully support the process of initiating the professorship procedure and express my support to my colleague Jaroslav Koutský. I believe that he will be successful.

Prof. Dr.-Ing. Robert Knippschild

Chair of ecological and revitalizing Urban Transformation
